## Spotlight

Awarded a Leader rating in the Verdantix Green Quadrant report

# ESG

With our combination of investor experience, engineering capabilities, and management consulting, Ramboll is ideally positioned to assist clients wherever they are on their environmental, social and governance (ESG) journey.

We work with clients as a trusted advisor not only to define their challenges and map out a path forward, but also to design and implement solutions to help them achieve their goals.

- ESG due diligence
- ESG strategy and integration
- ESG reporting
- Carbon and climate services

# CONTAMINATED SITE AND FACILITY SOLUTIONS

Delivering sustainable, risk-based solutions to address contamination. From investigation and feasibility studies to risk assessment, remediation, construction management, and site reuse.

- Site investigation
- Risk assessment
- Remedial evaluation, design, and implementation
- Remedy optimisation
- Sustainable remediation
- Construction management
- Brownfields, site reuse, green building

## Spotlight

Winner of 3 Environment Analyst 2022 UK Brownfield Awards

Winner of Environment Analyst Sustainability Consulting Award for SURE sustainable remediation tool

# ENVIRONMENTAL DUE DILIGENCE

A leader in evaluating the EHS risks associated with business transactions – from straightforward acquisition, divestiture and refinancing to complex merger, restructuring, buyout, public offering, and bankruptcy situations.

- Sustainability and ESG (environmental, social, and governance)
- Material issues
- Site contamination
- Health and safety
- Product stewardship and food safety
- Post-merger integration

Bright ideas. Sustainable change.
